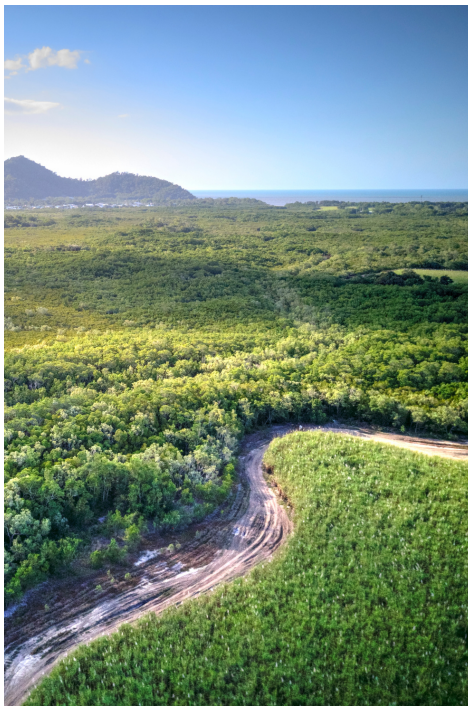
Calling QLD GBR coastal landholders to a:

BLUE CARBON WEBINAR



Join Blue Carbon Lab and WeAct on 18th August 5:30pm to explore how you can earn a supplementary income stream from your land.

FITZROY BASIN
WHITSUNDAY/MACKAY
BURDEKIN
WET TROPICS

WHAT IS BLUE CARBON?

Coastal wetlands (tidal marshes, mangroves, and seagrasses) are known as Blue Carbon' ecosystems. They act as natural carbon sinks, capturing and storing lots of carbon in the soil for millennial timescales.

Under Australia's Emission Reduction Fund (ERF), Blue Carbon projects that restore intertidal flow in the coastline (allowing coastal wetlands to flourish) are eligible to earn additional income by earning Australian Carbon Credits Units (ACCUs).

WHEN
THURS, 18th Aug 2022
5:30 PM to 6:30PM

CLICK TO REGISTER HERE

WEBINAR CONTENT

1. What is the ERF' Blue Carbon Method?
2. What are the opportunities of implementing projects?
3. How can the risk be managed?

WEBINAR PRESENTERS

- Dr Micheli Costa(Blue Carbon Lab scientist)
- Vivek Dugar (WeAct Director)
- Khory Hancock (WeAct Blue Carbon manager)

Calling QLD GBR Landholders

If you live in the
- Fitzroy Basin
- Whitsunday/Mackay Region
- Burkedin and
- Wet Tropics

Thursday August 4
5:30pm - 6:30pm

Attend this FREE Blue Carbon Webinar presented by leading specialists in the field.
Join Blue Carbon Lab and WeAct on Thursday August 4 to discover how you can increase both agricultural output and revenue from your land.

WHAT IS BLUE CARBON?

Blue Carbon is the carbon stored by coastal wetlands such as seagrasses, mangroves, and salt marshes.

Under Australia's Emission Reduction Fund, Blue Carbon projects can become eligible by restoring intertidal flow on your property in order to earn an additional income.

When?
Thursday the 4th of August 5:30pm - 6:30pm

Where?
Zoom (link will be sent 2 hours before start time).

How do I register?
Register using the below link:
https://bit.ly/3vmn6Gt

WHAT THIS 1 HOUR WEBINAR WILL COVER

1. **WHAT IS THE BLUE CARBON METHOD?**
2. **WHAT ARE THE RISKS?**
3. **HOW ARE THE RISKS MANAGED?**

Webinar Guest Speakers

- **Dr Micheli Costa** (Blue Carbon Lab Research Fellow)
- **Vivek Dugar** (WeAct Director)
- **Khory Hancock** (WeAct Blue Carbon Manager)
